United States Colleges with Department of Defense Contracts

Intelligent-Future Foundation for the Advancement of Diversity

Brian Bogart

December 2005

The following is a partial list of United States' colleges with Department of Defense contracts. There are at least 120 more than shown here (and another 112 to 150 in at least 22 different countries: See *Pentagon FY2005 Foreign Country Contracts*).

These numbers reflect Department of Defense contracts for science and engineering, and research and development. These numbers do *not* reflect the many defense-related programs funded by departments outside of DoD. For example, the top priority of the Department of Health and Human Services is bioterrorism (not food stamps, family assistance, or disaster relief); the top investor in NASA is the Pentagon; and the Education Department funds national-security and other defense-related programs.
